EXAMINER'S AMENDMENT

Prelim. Amdt/Amendment

1. Receipt is acknowledged of the Amendment filed 12 August 2005.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Krause on 19 August 2005 in order to place the instant application in the proper form for an allowance (i.e., to have proper support) by substituting "Claim 28" with -- Claim 26 -- in claim 28.

The application has been amended as follows:

IN THE CLAIMS:

Re claim 28, line 1: Substitutes "Claim 28" with -- Claim 26 --.

Allowable Subject Matter

3. Claims 19-38 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Allowable Subject Matter

1. Claims 19-38 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of records to Nabetani et al, Renner et al, Suzuki, Obata et al and all other cited references, taken alone or in combination, fails to teach or fairly suggest the specific structure or the method of an information processing apparatus having an receiving portion for inserting a card and an adapter comprising, among other things, a control member which controls the first driving force transmission member and the second driving force transmission member to eject either of the card or the adapter from the inserting portion, in accordance with the selection by the selecting member, wherein the control member controls the first driving power transmission member so that the adapter is restrained from moving in the ejecting direction of the inserting portion, when ejecting the card from the inserting portion as set forth in the claims combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The patents to Moshayedi (US 5660568 A) and Vapaakoski et al (US 6570767 B1) are cited as of interest and illustrate to a similar structure of a storage medium mounting/dismounting mechanism and information processing apparatus.
